

## Mousse Ring

Made by 304 stainless steel with electrolysis coating.  
Electrolysis coating would remove the dirties or oil, and prevent the surface from touching the food directly.

## Mousse Ring

Made by high class Al.Alloy, not easy to deform, light and fast heat conduction, save time and energy, hard anodized coating, strong and prevent from scratching, easy to clean  
Hard anodized mousse ring cannot be cleaned by steam or stewed, which will destroy the coating
